The TRS-80 Applications Software Sourcebook will accept only listings for applications software. Requests to list systems software will be returned. Radio Shack reserves the right to reject any listing submitted by returning the payment to the sender. Further, all listings are accepted with the express understanding that Radio Shack shall have no liability for errors which may occur in the printed Software Sourcebook listing, including the failure to include a listing, and in no event shall Radio Shack be liable for damages to any person submitting listings in an amount greater than the listing fee ($10.00). All persons submitting a listing agree not to induce Radio Shack sales personnel to promote the sale of listed software by the payment of commissions, fees, or in any other manner.

The Sourcebook will be available at all Radio Shack stores and participating dealers in the U.S.A., and will be updated and reprinted periodically as needed. Listings must be resubmitted or renewed to be included for more than one year. Sorry, there are no "quantity discounts" for multiple listings.
